## COUNTRY

Instil a sense of casual and comfortable city living with the raw, unfinished textures and relaxed tones of Industrial Country. Drawing inspiration from the industrial eras of exposed architectural details and contemporary style, this bathroom design evokes a homely atmosphere, which alludes to the feeling of uncomplicated country living within a warehouse loft-style interior. The New York Central Park subway tile being the focal point of the room, is elevated by the softness of Madera Blanco timber look floor tiles and balanced out by the concrete textured Raw Pearl tile for the walls.
