## Aussie Vertical

For a beautiful retaining wall range that will enable to turn your outdoor area into a contemporary masterpiece, Amber's Aussie Vertical is a clear winner. Aussie Vertical allows you to be as creative with your designs as you'd like. You won't have any problem making the convex or concave curves, straight walls, right angle corners, steps, and terraced walls you've been thinking about.

Aussie Vertical has been crafted from high-quality materials and features a natural looking splitface finish for added charm. This gorgeous retaining wall range has 4 beautiful colours to choose from, including Sunstone, Oatmeal, Charcoal, and Bondblend. Blocks are available in a 435x200x240mm size and there are accessories available on request.

While Aussie Vertical can be built to a maximum non-reinforced height of 800, you need to consult an engineer if you wish to build higher. It's essential that Aussie Vertical retaining walls are supported by a footing that's constructed of compact road base or concrete. Local council requirements may also apply.

### Why choose Aussie Vertical?

- Only available in NSW
- 4 stunning colour options
- Caps and corners on request
- Blocks come in a 435x200x240mm
- Features a natural looking splitface finish
