Build a feature wall in hours, not days, with the revolutionary Deco BLOCK system. The modular wall system uses interlocking blocks, each prefaced with natural stone and is ideal for DIY garden edges and low retaining walls, requiring little or no skill to install.

The blocks simply slot together and hold each other rigid and straight. If higher or load bearing walls are required reinforcing is just as simple with metal joints preinstalled to support vertical and horizontal steel rods allowing quick and easy connecting. Concrete fill for higher walls is simply poured or pumped to create a solid and structurally sound wall.

To build a wall simply start with a suitable level foundation and position the first course of blocks. The second course is simply placed on top of the first row in an overlapping pattern. The channels automatically align the blocks and then fill with either concrete or crushed rock as needed. The custom built natural stone capping is then fitted into the precut grooves and the wall is done!

The innovative Multi End blocks can be used to create corners, build columns or simply end a wall. For higher or structural walls the advise of a suitable qualified engineer should be sought and all local council requirements adhered to.

**FULL BLOCK**  
(18.5 blocks per m2)

LENGTH 360mm  
HEIGHT 150mm  
DEPTH 180mm  
WEIGHT 11kg

**HALF BLOCK**

LENGTH 180mm  
HEIGHT 150mm  
DEPTH 180mm  
WEIGHT 6kg

**MULTI-END BLOCK**  
(LEFT OR RIGHT)

LENGTH 360mm  
HEIGHT 150mm  
DEPTH 180mm  
WEIGHT 12kg

**HALF-END BLOCK**  
(LEFT OR RIGHT)

LENGTH 180mm  
HEIGHT 150mm  
DEPTH 180mm  
WEIGHT 6kg

**NATURAL STONE CAPPING**

Available in  
Full caps  
End caps  
Corner caps

**PRECISION, INTERLOCKING FORMWORK BLOCKS**

Labour saving system  
Quick and easy to erect  
Natural stone face

**QUICK & EASY TO ERECT**

The modular, self aligning Deco block system makes building a wall simple and quick. Once a suitable, level foundation with any reinforcing required is constructed, the first course of blocks are positioned.
